## EDUCATION

---

**Northeastern University** – Khoury College of Computer Sciences  
*Bachelor of Science in Computer Science and Finance*  
GPA: 3.48

**Boston, MA**  
May 2027

**Relevant Courses:** Business Statistics • Information Visualization • Corporate Finance • Investments • Database Design • Large-Scale Storage & Retrieval • Marketing

## EXPERIENCE

---

### Resident Student Association

**Boston, MA**

*Co-Vice President of Programming and Collaboration*

September 2025 - Present

- Allocate a \$100k+ Resident Activity Fee budget to optimize spending across events serving 10,000+ residents.
- Led cross-functional collaboration with the E-Board, university admins, and outside vendors to plan and execute ~40 on and off-campus programming initiatives per academic year, drawing 50 to 100 attendees each, plus signature events such as Husky Hunt and Snowball reaching around 700 participants.
- Earned 2026 NACURH School of the Year as part of the association's leadership team, the top national recognition for University residence hall associations.

### Brown Brothers Harriman

**Boston, MA**

*Talent Acquisition Support Co-op*

July - December 2025

- Coordinated logistics for 500+ interviews and partnered cross-functionally with recruiters and hiring managers in a fast-paced, professional services environment.
- Acted as front-facing HR representative, directing visitors and employees to appropriate resources and services.
- Maintained and audited records across enterprise systems (Workday, Csisive) at a global financial services firm, validating data accuracy and adherence to internal policies.

### Northeastern University, Office of Student Employment

**Boston, MA**

*Compliance Assistant*

May 2026 - Present

- Audit and process I-9 documentation in Fragomen to verify student-employee work authorization and maintain federal employment compliance.
- Resolve student inquiries on the employment process by referencing Workday records to check status, identify missing documentation, and pinpoint holds.

## PROJECTS

---

### Healthcare Facility Cost Analysis | *Excel, SPSS*

- Researched cost drivers across 264 facilities using regression and hypothesis testing, explaining 68% of total-expense variation.
- Delivered prioritized recommendations in a written report communicating findings clearly to a non-technical audience.

### Multi-Asset Portfolio Management | *StockTrak, Excel*

- Co-managed a simulated ~\$900K, 25-holding portfolio (70% equity / 30% fixed income), outperforming the S&P 500 and Russell 1000 by ~6 points (-2.6% vs -8.7%) over a downturn.
- Reduced risk below both benchmarks (beta 0.89, max drawdown -6.4% vs -9.1%), documenting attribution and risk metrics (Sharpe, VaR) in a written report.

### Interactive Flight Networks Dashboard | *Python (pandas), HTML/CSS/JS*

- Built an interactive dashboard synthesizing 55,000+ records into an accessible visual tool, making a large international data set explorable for non-technical users.
